TERMS AND CONDITIONS

****Please note:** *All Lytec Client/Server versions require Microsoft SQL licenses. You may either supply your own copy of Microsoft SQL or purchase licenses. If you are upgrading Lytec, please check the version of SQL installed. Although Lytec 2024 will work with older versions of SQL some features are not compatible with older versions. SQL 2012 and older are no longer supported by Microsoft and may be a HIPAA violation. If you are using SQL 2012 or older, we recommend upgrading your SQL license. Please call for pricing.

The prices listed above are for upgrades from the same version to the same version (e.g., single user to single user upgrade). If you need to change versions, please contact us at 1.800.759.1321. If you are unsure of which version you have, please select HELP and ABOUT LYTEC from the toolbar in your Lytec software. If you are using any third-party links or EHR software, you may need to contact the vendor for an upgrade as they may not be compatible with Lytec 2024. There will be GA & AZ sales tax (only applicable for practices located in Georgia & Arizona) added to your total. Software will be made available to download. The purchase of software does not include support, computer hardware, installation, data conversions, training, customization, or clearinghouse configuration outside of MediPro's preferred EDI vendors.
